

PINKI MEENA

Full Stack Developer | MERN Stack | MEAN Stack | React Native | Java

9009679126 | pinkimeena52913@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience delivering scalable web and mobile applications using MERN Stack, MEAN Stack, React Native, and Java. Skilled in building RESTful APIs, integrating third-party services, and managing end-to-end SDLC for international clients. Strong foundation in Agile development, client communication, and clean code practices.

TECHNICAL SKILLS

Tech Stacks: MERN Stack (MongoDB, Express.js, React.js, Node.js), MEAN Stack (MongoDB, Express.js, Angular, Node.js)

Frontend: React.js, Angular, HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), TypeScript

Mobile: React Native (Cross-platform iOS and Android)

Backend: Node.js, Express.js, NestJS, REST API Development, Java

Databases: MongoDB, MySQL

CMS and Automation: Strapi Headless CMS, SAP BTP, Microsoft Adaptive Cards

Tools and DevOps: Git, GitHub, Postman, VS Code, Cursor, Claude Code, Jenkins (Basic)

Soft Skills: Client Handling, Requirement Gathering, Agile/Scrum, Problem Solving, Team Collaboration

WORK EXPERIENCE

Software Developer | Singaji Software Solution | 2024 - Present

- Developed and deployed 6+ full-stack MERN and MEAN stack web and mobile applications across domains including digital gifting, cybersecurity, agriculture, and enterprise automation.
- Designed and maintained 15+ RESTful APIs using Node.js, Express.js, and NestJS with MongoDB and MySQL databases.
- Led React Native mobile app migration from v0.63 to v0.83, improving performance, stability, and iOS/Android compatibility.
- Integrated secure payment gateways and third-party APIs for production applications serving international users.
- Implemented SAP BTP process automation workflows with Microsoft Outlook integration using Adaptive Cards.
- Managed complete SDLC from requirement gathering and system design to delivery for multiple simultaneous projects.
- Handled direct communication with international clients, translating business requirements into technical deliverables on schedule.

KEY PROJECTS

Shouta - Digital Gifting Mobile App | React Native, Payment Gateway

- Migrated production Australian-based gifting app from React Native v0.63 to v0.83, improving performance and modern API compatibility.
- Implemented secure payment gateway for reliable digital gift transactions and handled all international client communication end-to-end.

Bconnect - Lighting Product Platform | React.js, Tailwind CSS, Strapi CMS, MySQL

- Built a fully dynamic product platform using Strapi headless CMS, enabling real-time content updates without redeployment.
- Designed API-driven routing for dynamic page rendering and PDF datasheet downloads, improving scalability and content workflows.

CyberStash - Cyber Defense Portal | Angular, REST APIs

- Built a security portal to detect threats and vulnerabilities and integrated third-party APIs to automate IP/domain blocking across network environments.

Setu - Agricultural Management App | NestJS, MongoDB

- Developed modular backend microservices for crop storage, livestock, and soil/water management, providing farmers with reliable digital access to agricultural resources.

SAP BTP Outlook Integration | SAP BTP, Microsoft Outlook, Adaptive Cards

- Built an email-driven approval workflow integrating SAP BTP with Outlook, enabling approvals without logging into SAP with real-time status sync to the Control Tower.

Digital Notice Board | Angular

- Developed an Angular-based digital notice board for educational institutions with customizable themes, preview templates, and real-time updates.

SSEC College Website | *HTML5, CSS3, Bootstrap, JavaScript*

- Designed a fully responsive mobile-first college website with structured sections improving digital presence and user accessibility.

KEY ACHIEVEMENTS

- Delivered 6+ production-ready full-stack projects across diverse domains within 2 years.
- Independently managed and delivered international client projects on time with high stakeholder satisfaction.
- Reduced SAP manual approval cycle by automating email-based workflows via Outlook and Adaptive Cards integration.
- Modernized a legacy React Native app, improving runtime performance and eliminating deprecated API dependencies.
- Replaced a college paper-based notice system with a fully digital solution, improving institutional communication.

CORE COMPETENCIES

MERN Stack, MEAN Stack, React Native, Java, Full Stack Development, REST API Design, Frontend Architecture, Backend Engineering, Database Design, MongoDB, MySQL, Agile/Scrum, System Design, Scalable Architecture, Payment Gateway Integration, SAP BTP, Process Automation, Headless CMS, Client Communication, Cross-platform Mobile Development, SDLC, Code Review, Problem Solving

EDUCATION

Master of Computer Applications (MCA)

Indore International College, RGPV, Bhopal, Madhya Pradesh

Bachelor of Computer Applications (BCA)

Sant Singaji Institute of Science and Management, Vikram University
